*1000 essential words in Albanian*. Albanian is a language of the Indo-European family. It is an official language in Albania and Kosovo. The number of Albanian speakers in the Balkans is estimated to be approximately 5 million.

How to learn a language differently? Today, language learning is revolutionized: you do not have to go to traditional language classes anymore. Our learning method: a selection of hundreds of phrases and essential words. You listen to them, you repeat them, and you speak. We rely on pronunciation, oral rehearsal, listening, combined with words, essential phrases, and a vocabulary list. 20% of the words are used 80% of the time. The end goal is to get a sufficient level in one language to be able to hold simple conversations, to be able to understand simple exchanges, deal with everyday life and start exploring the new culture that opens up to you.
