***Something sinister lurks within Rookwood Apartments....***

American History lecturer Paul Mahan was looking for a little peace and quiet. A place to recover from his personal demons and pursue his academic career. But when he moves into the newly refurbished Rookwood Apartments, he soon finds himself trapped in a living nightmare.

Deep beneath the old apartment building, the stones of its foundation have been infused with decades of pain and bloodshed. A dark legacy hangs over Rookwood...a curse Paul cannot escape, no matter how hard he tries.

And as Paul is forced to confront one terrifying event after another, an ancient presence stirs in the darkness. A slumbering power begins to rise, manipulating events and dragging Paul deeper and deeper into its web of shadows.

Now it has awakened. And it hungers for human souls....
