The audiobooks in this series, are a compilation of sightings, encounters, and evidential findings as they pertain to Bigfoot in North America and those who have encountered them. W.J. Sheehan shares these testimonials in the style of a beat reporter chasing a compelling story, rather than that of a dramatist reading a script. He is an internationally known figure in the field of Bigfoot and is sought after for his entertaining interviewing style. Please listen to the retail sample as the entire series is told in a similar fashion. Enjoy the listen!
