A multiple-partner/m@nage erotic romance. Contains office hanky-panky, rough outdoor games, dominant men, spanking, and ski masks. MMMM/f (That's four men punishing one naughty, submissive ski bunny).

Every winter, Cunningham and Jonathan fly the company to Aspen for a week of snow and fun. Elle's never been on the slopes, but she's too embarrassed to admit it, especially when Cunningham seems to be (finally) falling for her. One lie leads to another. Despite cramming in private snowboarding lessons, Elle can't stop the men from realizing she's in over her head. Cunningham orders her dragged into the trees for punishment, where he, Jonathan, and Nolan are joined by a brawny stranger. It's cold outside, but the sex is sizzling hot - maybe even hot enough to melt Cunningham's heart.
