With Phoa stabilized against the Green and Tiamat's coral, Reyes and Thanata have inspired people to work together against the swarms. Yet while exploring an old colony ship, they discover a message warning them of catastrophe. The voice belongs to Reyes' estranged father, who warns that a final protocol left by the first colonists will doom Phoa. Soon, meteors land in every settled region and transform into swarms that devour everything around them - all while a huge, ringed structure hovers in the sky. Reyes and Thanata must learn the secrets of Phoa's past, as well as his father's whereabouts, if they hope to guarantee their future.
