Is God pleased with what you watched last night? Have you considered God when choosing your entertainment? As Christians, we are not supposed to walk in the ways of the world, but we please God when everything we do, including our entertainment, honors him. But how do we honor God with our movies, music, and video games? Does the Bible give us guidelines or hard-fast rules? *I Am Not Amused* shows objectively, from the artists themselves, that some media entertainment is not suitable for Christians, but the Bible gives us more freedom in our entertainment choices than some have suggested in the past. This book will walk you through the importance of analyzing your entertainment choices against God's word in a sensible way avoiding both legalism and non-critical involvement. Once you have listened to *I Am Not Amused*, you can be confident your entertainment choices will bring honor to your Christian walk.
