**Hide a witch. Find a god.**

While construction of the new council chambers is underway in shifter territory, relations between the members remain strained and controversial. The ancient evil plaguing our town attempts to subvert our highest members to create a portal and grant him access to our world.

When I suspect my daughter's unscrupulous boyfriend is connected to the mutated cult, I go undercover in the demon sex club. I learn more about my ex and his girlfriend than I bargained for, as well as a lead on the ancient god's new temple.

As my relationship with my daughter disintegrates, I am tasked with a new position within the council. Do I accept and risk my relationship with Hunter, or decline and risk the mutation spreading?

*Find out what lurks in the shadows of Ravenholde by reading Magic Is Only Skin Deep, the new Paranormal Women's Fiction series listeners are comparing to Shannon Mayer, K.F. Breene, and Victoria Dannan.*
