Monty was dead until he wasn't. His body was no longer his own, having been shoved into a dying priest in the heart of a totally different world of magic and death. The priest had been protecting a caravan—a duty Monty now inherited—and he was faced with bandits and worse, all while keeping up the façade of his stolen identity. Luckily, the priest had been capable of miraculous [Light] magic, and now so was Monty. He could heal . . . and he could kill. And he would, without hesitation. He'd rather not die again.
