Resurgence. Hands down the best Virtual Reality Massive-Multi Online Role Playing Game. Ever. There is no comparison between Resurgence and any other game, or Altcon and any other company, as any of the thousands of beta testers will attest. Any beta tester but Alex, anyway.

Alex knows Resurgence is more than a game, and that others have likely died so Resurgence could be released to the public. The truth weighs upon him, though the mystery of AltCon's true endgame is the real cause of his frustrations.

While Alex secretly works to discover the reality behind Resurgence - and AltCon's intentions - he is not alone. With the tight-knit squad of players he has come to see as friends, Alex must overcome the array of challenges in the game in order to discover the truth.

Even though Alex must work in secret, he's not as alone as he believes. Substantial forces outside the game are stacking up to confront AltCon, too, all trying to answer the same question: can Altcon be stopped?

This is a new release of an edition originally published by Joshua W. Nelson.
