Chanel Barry was an independent artist who was struggling to make ends meet. So when she was hired by Boston based billionaire Nick Thomas, she figured this was the pay day she had been looking for.

Nick wanted to invite Chanel to his yacht to paint a portrait of him. Only thing was, he wanted to be naked for it.

Now, Chanel always considered herself to be the utmost professional when it came to her work. However, when it came to hunky, naked billionaires she was prepared to make an exception or two....

*WARNING: This is a sexy and steamy billionaire romance with a plot that is guaranteed to surprise you right up to the very end.*
