Silicon Valley. If this place were a country, it'd be the wealthiest on Earth. It's a place full of disruptors. But that's an edge that cuts both ways. Set in the cutthroat world of tech, The Valley gives you a prime time soap-style blast of drama, ambition, twists, and revenge twice a week. Cam, a hacker with a shadowy past, has come here to teach the most powerful people in the Valley a lesson. In a world full of high risk and high reward, revenge is a feature, not a bug.
