One of the unquestioned masters of military science fiction, *New York Times* best-selling author John Ringo teams with real-life rocket scientist Travis S. Taylor for this action-packed sequel to *Into the Looking Glass*. The alien Dreen are still a terrifying menace across the galaxy, but Earth has a new weapon - the first human warp ship. Aboard the *Vorpall Blade*, America's tough-as-nails Force Recon Marines seek the Dreen, hoping to bring the fight directly to them.
