This collection features two magical mysteries from the *Witches of Enchanted Bay* series, including *Hexes* and *Other Hairy Situations*.

Hexes: As a witch, Meg Walton has a lot of spells at her disposal. Despite all of her magical powers, there is one thing she can't do. No matter how much she wants to, she is unable to change the past. Nor can she forget the fact that her father walked out on her, decades before. So, when her dad shows up in Enchanted Bay, one afternoon, Meg can't help but wonder what he wants. Has he returned home to reconcile? Or is more heartbreak in store for Meg?

Other Hairy Situations: Witches, werewolves, and murder. What if a single spell could change everything? When Meg Walton discovers a spell that can cure a werewolf curse, her boyfriend Connor Smith gets really excited. Connor has been trying to rid himself of his werewolf curse for years. Now, he finally has the chance to be free of the beastly side of him. Unfortunately, the spell comes with potentially deadly side effects. Is the risk worth the reward?
