I want you to work for me. You will wear the exact clothes I send you and you will do exactly what I ask of you . . .

Alice's life is a mess. She's lost her job and her girlfriend, and she doesn't know how she will pay her rent next month.

She meets a much older wealthy stranger from a dating app for a hookup and the next day she receives a message from this stranger offering her a job. Alice will be the new personal assistant to the CEO Joanne Morgan. The only catch is that she has to wear the exact sexy clothes her new boss chooses for her while she's at work.

Alice finds herself tangled up in office games that turn her on more and more. Joanne Morgan is a stone-cold Ice Queen, so why is Alice so into her? It is getting harder and harder to focus on work and Alice knows her boss doesn't do relationships.

Can Alice find a way to charm the Ice Queen CEO beyond the purely physical and get her own happy ever after?

Contains mature themes.
